TARGETED PUBLIC EDUCATION BACKGROUND

Johannesburg Water was established in January 2001 as an independent company, the City of Johannesburg being the sole shareholder, JW is a municipal-owned entity (MOE) mandated to provide water and sanitation services to the residents of Johannesburg.

JW experiences high levels of abuse on infrastructure especially the sewer network by residents and in some areas due to aging infrastructure. JW will continue to implement infrastructure upgrading projects to minimize the continuous overflow of sewer manholes as a result of aging infrastructure. In support of technical intervention communities also have to play a critical role in ensuring that the system is not overloaded and burdened with foreign objects and in the same manner conserve water and use it sparingly. There have been requests for JW's intervention in Greater Ivory Park. According to the 2011 census results Ivory Park ext. 2 had a population of 33,268 so the Service Provider should try and reach as many people as possible besides the number of households.

PURPOSE

To provide guidelines for the request for quotation of a Service Provider who will create awareness on the proper use of sewer infrastructure in Ivory Park ext. 2 in Ward 79.

OBJECTIVES

To influence behavioral change towards the proper use and maintenance of the sewer infrastructure as well as the conservative use of water.

OUTCOMES

- Proper use of sewer infrastructure
- A well-developed sense of ownership towards infrastructure
- Conservative use of water
- Responsibility to report service delivery failures
- Respect for municipal servitudes
- Reduction of sewer blockages by 5%

TARGETED PUBLIC EDUCATION

Education is the key to empowering our people to take charge of their lives. In order to fulfill legislative requirements and create a sense of ownership in communities.

Johannesburg Water in providing potable water and sanitation services within the City is confronted by various challenges of water wastage and sewer system abuse. THE Greater Ivory Park has been identified as a hotspot for both but the main focus of the document would be on sewer system abuse. Johannesburg Water seeks to appoint a Service Provider that will conduct an innovative public education program in Ward 1, Orange Farm within the City

of Johannesburg. The Service Provider needs to show in his/her program as to how best these areas can be impacted. These will take various forms such as door to door campaigns, workshops in various public institutions such as clinics, churches, crèches, schools and other hang-out areas. Based on the purpose and objectives of the program as indicated above, the expected outcome of the program is for JW to minimize sewer blockages.

AIM

In embarking in the targeted public education drive Johannesburg Water hopes to achieve the following:

- Establish the causes of sewer system abuse so as to inform mitigation thereof
- Influence behavioral change to ensure proper use of sewer infrastructure
- To encourage conscious and active community participation in issues that affect their environment
- To encourage the highest health and hygiene standards with conservative use of water in various communities
- To solicit commitment from the residents to be ambassadors of change

PROCESS PLAN

The effective intervention would be that which will involve the community members in participating in issues that affect them and will have the following benefits other than the education:

- Employing local people
- Capacity building for young persons to be appointed to the program

Johannesburg Water acknowledges that behavioral change cannot be achieved overnight but rather as a process. However, it is important to have a plan in place in establishing facts, mitigate and assess if one had succeeded or attempted to succeed in that course. Due to the enormous work involved in so doing and the capacity within the department, an Independent Service Provider(s) needs to be solicited. A thorough consultative process should be done with the leadership, all stakeholders and community at large to ensure buy-in and gather ideas from the community as to the best times of getting the relevant people.

APPOINTMENT OF A PUBLIC EDUCATION SERVICE PROVIDER

The appointed service provider will conduct a pre-assessment survey that will assist with the analysis that will inform the trends and attitudes towards the proper use of the sewer infrastructure and to assess impact of the intervention thereof. Subsequent to the analysis and stakeholder consultation, constant awareness should be done using various forms of media and interactions within the community like door to door campaigns.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. takes all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancels a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
