Media Statement

Date of release: 09 May 2022

POSTPONEMENT OF PLANNED RAND WATER TIE-IN (F46 PIPELINE TO THE EXISTING F34 PIPELINE)

Johannesburg Water wishes to inform residents, of the postponement of the planned Rand Water shutdown to tie-in the newly installed F46 pipeline to the existing F34 pipeline. This shutdown was planned for the 11th to 12th May 2022.

The postponement is as a result of urgent work that needs to be undertaken at the Rand Water's Vereeniging Water Treatment Works, which will also affect the Eikenhof system.

Rand Water would like to synchronize these shutdowns in order to minimize water supply interruptions to the communities. The shutdown for the F46 tie-in as well as the replacement of a non-return valve at Vereeniging Water Treatment Works will be moved to June 2022 and a new 21-day notice will be issued as soon as it has been received from Rand Water.

Johannesburg Water apologises to customers for the inconvenience caused by the postponement of this shutdown.

Ends
