UNPLANNED MAINTENANCE

Major burst pipe in Chartwell

Water has been isolated (closed) to allow for the repairs of a 450mm AC burst pipe at the corner of Cedar Road and Runnymede Avenue. At this stage, there is no estimated time for completion.

Affected areas include Broadacres, Chartwell, Msawawa Informal Settlement, Tirong Estate and part of Steyn City.

Further updates will be provided to customers.

Burst pipe in Parkwood

Water has been isolated (closed) to allow for the repairs of a 225mm pipe at the corner of Denbigh and Dorset Roads. At this stage, there is no estimated time for completion.

Affected areas include Parkwood, Parkview, Greenside East and surrounding areas.

Further updates will be provided to customers.

Water issues in Craigavon and Cedar Lakes

Johannesburg Water is aware of low pressure to no water issues, every day. The depot is currently investigating the cause of these issues. In the meantime, water tankers have been arranged for the affected areas.

Locations of water tankers:

Craigavon

- Cedar Acres Estate
- Fourways Estate
- Dakarai Lofts

Cedar Lakes

- Bishops Field
- Cedar Lakes Estate

Cedar Creeks

- Clovelly Crescent

Area(s) affected: Protea Glen extensions 12 to 27

Street name(s): All streets

Start date: 13 February 2024 at 05:00

End date: 15 February 2024 at 07:00

Impact on customers: No water

Reason for interruption: Repairing a 600mm steel pipe

Location of water tankers: Roaming water tankers will be provided

REGIONS

PLANNED MAINTENANCE

Areas affected: Aeroton; Ormonde; Ormonde View; Orlando East; Orlando West; Diepkloof, Diepkloof Extension; Diepkloof extensions 2 and 10; Baragwanath Hospital; and Doctor Matsheke Hospital.

Street names: All streets.

Start date and time: 2 February 2024 at 10:00 (pre-shutdown activities will begin on 31 January).

End date and time: 9 February 2024 at 20:00 (post-shutdown activities will end on 10 February).

Impact on customers: Low pressure to no water (particularly high-lying areas).

Reason for interruption: Structural assessment and Inspection on the reservoir and cleaning.

Alternative water supply: Water tankers will be provided to high-lying areas, as and when necessary.
