Systems Update: Johannesburg Water's systems are progressively recovering

Johannesburg Water has noted some improvements in most systems. The bulk supplier is pumping an additional 100ML which is contributing to improvements in the Roodepoort system. Complete recovery will take a few days.

Recovered systems

The following systems have recovered and are currently supplying normally in the affected supply zones.

- Chiawelo reservoir
- Doornkop West reservoir
- Power Park reservoir
- Jabulani reservoir
- Diepkloof reservoir
- Honeydew reservoir and tower
- Olivedale reservoir
- Cosmo City reservoir
- Boschkop reservoir
- Quellerina tower
- Florida North tower
- Horizon tower
- Aeroton reservoir and tower
- Brixton reservoir
- Eagles Nest reservoir
- Constantia tower
- Helderkrui reservoir and tower
- Meadowlands reservoir
- Linden 2 reservoir
- Waterval tower

Recovering systems

The following systems have shown signs of improvement, but they are still low. Improvements are expected thorough the day and night. Low pressure in expected in certain areas of the supply zone. Direct feeds within the system have improved and are supplying fairly.

- Orlando East reservoir
- Zondi reservoir and tower
- Protea Glen reservoir
- Braamfischer reservoir
- Robertsville reservoir
- Kensington-B reservoir and tower
- Witpoortjie reservoir

- Fairlands reservoir
- Corriemoor reservoir
- Crosby reservoir
- Randpark Ridge reservoir
- Crown Gardens reservoir and towers

Systems that have not recovered

The following systems are still struggling to improve and are critically low to empty. Poor pressure to no water is expected in the supply zones.

- Hursthill 1 & 2 reservoirs
- Linden 1 reservoir and tower
- Blairgowrie reservoir

Most systems have shown improvement overnight and have moved to recovered and recovering systems. JW is monitoring the areas that have not recovered and providing alternative water systems.

List of affected areas:

Reservoir: <https://www.johannesburgwater.co.za/johannesburg-water-reservoirs-3/>

Tower: <https://www.johannesburgwater.co.za/johannesburg-water-towers/>

Direct feeds: <https://www.johannesburgwater.co.za/johannesburg-water-direct-feeds/>

The bulk supplier's systems are interconnected and are flexible to augment (support) one another, which assist in the recovery of all systems. Johannesburg Water will prioritise the prompt isolation of bursts and leaks and the repair thereof. Customers are requested to repair leaks on their properties as these also contribute to the high demand on Johannesburg Water systems. Residents are requested to observe level-1 water restrictions which are implemented from 1 September to 31 March. These restrictions prohibit the use of hosepipes to water gardens, wash cars, clean driveways, as well as fill up swimming pools and water features between 06:00 and 18:00. Instead, the use of greywater is encouraged.

Ends
