Daily water supply system status updates: Monday, 17 July 2023 (Afternoon)

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst).

Unplanned interruptions

1. Area affected: Linbro Park

Street names: 3rd Avenue, Hilton Road, 1st Road, 2nd Road, Clulee Road, Oak Avenue and Reid Avenue

Date: 18 July 2023

Time: 07:00 – 19:00

Impact on customers: No water

Reason for interruption: Connection of newly constructed 300mm to a 200mm mainline

Alternative water supply: Further details to be provided

Planned interruptions

1. Rand Water planned shutdown: repairs complete

The repairs that were conducted during the planned Rand Water shutdown, from Tuesday, 11 July at 19:00, to Friday morning at 05:00, have been completed and Johannesburg Water systems are gradually recovering.

Major recovery was made by Johannesburg Water systems on Sunday. This was largely noted in most regions as the entity's technical teams spent Sunday building capacity.

Water tankers continue to be provided for areas that are not yet fully recovered, such as the Meadowlands and Braamfischerville systems, the Crown Gardens reservoir, the Blairgowrie reservoir, the Linden 1 reservoir, as well as the Linden 2 tower.

Residents are reminded that although the planned Rand Water shutdown is over, full recovery of the system generally takes longer not only because of the magnitude of the shutdown, but also the complex nature of water systems. Load shedding has also impacted the recovery of certain areas as power outages affect pumping at the entity's systems.

Zwartkopjes Booster Station. Affected areas include:

De Wetshof ext.1, Observatory ext, Bruma, Cyrildene, Bezuidenhout valley, Bertrams, Lorentzville, Judith's Paarl, Troyeville, Hyde Park, Saxonwold, Dunkeld, Melrose, Parkview, Illovo, Melrose North, Greenside, Parkwood, Riviera, Killarney, Oaklands, Craighall, Westcliff,
