

## **Daily water supply system status updates: Thursday, 22 June 2023 (Afternoon)**

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst).

### **Unplanned interruptions**

#### **1. Burst pipe: Tema Street, Orlando East**

There is a burst pipe on Tema Street in Orlando East, Soweto. A reservoir outlet has been isolated to conduct repairs on the pipe. The affected areas are Orlando East and Orlando West. Restoration time is estimated to be around 20:00

#### **2. Emergency repairs at Crosby pump station**

We regret to inform you that our Crosby pump station has experienced an emergency repair that requires shutting off the water supply to the Brixton reservoir, which receives supply from the Crosby system.

In order to minimise the outage period, repairs will take place this evening when the supply from Crosby reservoir will be closed at 21:00. We estimate that repairs will be completed by 06:00 tomorrow morning, on 23 June 2023. During this time, the outlet of Brixton reservoir will also be closed. Pumps to the Brixton tower will be isolated as the reservoir levels decrease.

During this period, customers may experience reduced water pressure or a complete loss of water supply. The following areas/neighbourhoods will be affected by the water outage:

#### **Brixton tower zone supplies parts of:**

Langlaagte North, Auckland Park Extensions 2 and 3, Mayfair West, Hursthill, Rossmore, Coronationville, Westdene, Jan Hofmeyer, Vredepark, and Brixton.
