Daily water supply system status updates: Wednesday, 6 September 2023 (Morning)

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst).

Unplanned interruption

Johannesburg Water systems: morning update

South Hills tower

The water supply at the South Hills tower has been restored, and the pumping system is now running at its normal capacity. As the water levels continue to rise and stabilise, customers within the affected areas can expect to have their water services restored soon.

Linden 1 tower

- Water levels in the tower have improved, and customers within the supply zone should now have uninterrupted access to water.

Doornkop reservoir

- Remains low, but stable. It is supplying normally.

Commando System

- Brixton reservoir: Water levels in the reservoir have improved significantly. Customers within the supply zone should now have water supply. The reservoir outlet remains throttled at 50%.
- Brixton tower: Water levels in the tower have improved significantly. Customers within the supply zone should now have access to a stable water supply.
- Crosby reservoir: Critically low. Flows are still being redirected to support the Brixton complex. Customers may experience low pressure to no water.
- Hursthill 1 reservoir: Critically low, and as a result, customers may experience low pressure to no water.
- Hursthill 2 reservoir: Critically low. Customers in this supply zone should still expect low water pressure. The outlet is now fully opened.

Eagles Nest reservoir

- Remains critically low due to poor supply and high demand. Customers in this supply zone should still expect low water pressure.

Alternative water supply is still being provided to affected areas.

Planned interruptions

Please note that work is still underway on the following:

- 1. Reservoirs/towers affected:** Berea Reservoir; Hursthill Reservoir no.1 & 2; Linden Reservoir no. 1 & 2; Parktown Reservoir no. 1& 2; Dunkeld Reservoir

Directors:

Ms Gugulethu Phakathi (Chairperson), Mr Ntshavheni Mukwevho (Managing Director and Executive Director),
Mr Johan Koekemoer (Financial Director and Executive Director), Mr Phetole Modika, Mr Siphamandla Mnyani, Mr Siyabonga Mthembu, Mrs
Zandile Meeleso, Mr Pholoso Matjele, Mr Kgaile Mogoye, Mr Molate Mashifane, Ms Pamela Mabece, Mr Lunga Bernard

Ms Kethabile Mabe (Company Secretary),

Street Names: All streets

Start date: 5 September 2023 at 15:00

End date: 6 September 2023 at 08:00

Impact on customers: Low pressure to no water

Reason for disruption: Replacement of the 800mm Stafford meter along Rand Water bulk line supplying Johannesburg Water

Water Tankers: Water tankers will be deployed to affected areas

2. Suburbs Affected: Craighall, Craighall Park, Parkhurst, parts of Parktown North, parts of Hyde Park, Hurlingham, Hurlingham Gardens, and Dunkeld West.

Street Names: All streets

Start date: 12 September 2023 at 08:00

End date: 22 September 2023 at 15:00

Impact on customers: Possible low pressure to no water. However, no impact is expected.

Reason for disruption: Draining of Dunkeld reservoir for consultants' inspection and reservoir washing.

Residents are requested to observe level-1 water restrictions implemented from 1 September to 31 March. These restrictions prohibit the use of hosepipes to water gardens, wash cars, clean driveways, as well as fill up swimming pools and water features between 06:00 and 18:00. Instead, the use of greywater is encouraged. This is to ensure that systems are kept stable throughout the coming months. We urge residents to report any form of vandalism and theft of water infrastructure to 0800 00 25 87.
