

Daily water supply system status updates: Wednesday, 8 March 2023 (Afternoon)

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst).

Unplanned interruptions:

1. Johannesburg Water Customer Notice: Power interruption at Rand Water's Zuikerbosch purification plant impacts pumping from three pump stations

The power failure at Rand Water's Zuikerbosch purification plant has been resolved. The purification plant is in the process of regaining normal operations. Once the plant is back online, pumping will resume to the various pump stations, which were impacted by reduced capacity from earlier this morning.

The effects of reduced supply is being monitored at Johannesburg Water's infrastructure in Midrand, east of Johannesburg, south of Johannesburg and the Commando system (Brixton, Crosby and Hursthill). Recovery of affected systems will take time.

Johannesburg Water requests customers to reduce consumption during this period.
