

DAILY WATER SUPPLY SYSTEM STATUS UPDATES

Water supply status update by exception (i.e., areas affected due to supply constraint and not service interruption from occasional pipe burst). **Tuesday, 3 December 2024 (Morning)**

Streets affected: All streets

UPDATE: Johannesburg Water is working on resolving water supply interruptions in Protea Glen.

So far, the team has worked on two valves suspected to be the cause of the outage, however with no success. It appears the problem could be elsewhere within the reticulation system. The team continues with further investigations.

The outlet of the Doornkop Reservoir remains isolated in order to conduct the repairs.

Mobile water tankers continue to be provided to affected areas until water supply is restored.

There is no estimated time for completion of the repairs.
